**Amilie Larson**

**Joshua: How old are you?**

*Amilie: Hey Joshua, thanks for inviting me. I'm 22.*

**Joshua: How long ago did you get started online?**

*Amilie: I first started online back when I was 20. So it's almost 2 years now since I've stepped in to this wonderful world of Internet Marketing, and I'm loving it.*

**Joshua: Are you working full time online today?**

*Amilie: Yes, I'm working full time online. I really can see what drove me here to where I am now.*

*A job in real life can sometimes be a blessing, but not always. To be pressured by a boss is one thing I really don't prefer.*

**Joshua: What kind of work did you do before internet marketing?**

*Amilie: I really didn't work before I started online. I was the kind of girl born to odd, but loving parents and they didn't want me to get a job.*

*They love me and watch over me every little second. It feels great!*

**Joshua: What made you want to get into Internet marketing?**

*Amilie: I've seen how my Dad was always pressured by his seniors despite him being a very hardworking person, and that's something I hated to see.*

*Life seemed hard to see my dad struggling so much over sometimes-silly matters.*

*I quickly understood why my dad didn't want me to get a job. He didn't want me to be in the situation he is in and I can understand that quite well.*

*But I simply feel uncomfortable about it; I didn't want to be a burden on him, so I tried my hands online.*

**Joshua: How long did it take for you to make your first dollar online?**

*Amilie: To be honest, it really did take long.*

*I first started out doing graphics. I still remember how I was doing mini graphic elements, logos, etc. and I was making less than \$5 each at that time.*

*Everyone spoke of how elegant my work was even though I wasn't making anything big and that alone gave me the motivation.*

*I then wanted to try something new, I did a lot of research, went through several expert courses and I finally advanced to where I*

*am now with SEO.*

**Joshua: What was the biggest obstacle you overcame early on in your Internet marketing career?**

*Amilie: When I first started out it was a really big hassle. I had to identify the good products from the hype. I had to get through it, which was really hard and it took a lot of time.*

*But as time passed; with my mountain loads of testing and research, things got a lot easier and I was able to figure out how to effectively do SEO and drive traffic in the simplest way possible.*

**Joshua: What are some things you still struggle with today in your business?**

*Amilie: I still lack the confidence to meet my fellow marketers in person or attend live interviews, which are the most essential steps for a successful business.*

**Joshua: What is the #1 advice you can give to someone just starting out in his or her online business that's looking to make money with SEO?**

*Amilie: The Golden Rule - Never Give Up!*

*All qualities manifest from hard work. Once you hop into the world of Internet Marketing, never turn your back on it. Instead strive your way to the top by making what you feel 'impossible',*

*possible.*

*Never think that online marketing isn't for you.*

*Guess what, you can definitely do it. I can say that online money is the easiest. When you start out it might seem a little hard, but get through all the hurdles and you'll later find yourself never turning back.*

**Joshua: What do you enjoy most about your online business?**

*Amilie: Being able to earn online means I work at my leisure, regardless of where I am, as long as I have Internet of course 😊*

*It's enjoyable, you don't have a boss and you can do what you want.*

*There is no limit to how much you can earn a day or a month, unlike a usual job salary. This alone is a blessing!*

**Joshua: What exactly is SEO Mindshift?**

*Amilie: The SEO MindShift is a comprehensive report that covers the innovative methods that can unleash the potential of your website - in terms of both traffic and rankings.*
